GYAN SINGH JANKAWAT

EXPERIENCE

Skills in Quality Control and Beverage Development

- With a focus on quality control and beverage development, I possess a diverse skill set tailored to ensuring the excellence of fruit-based beverages. In quality control, I meticulously assess chemical properties to ensure safety and consistency.
- In beverage development, I craft innovative and delicious drinks that meet industry standards and consumer preferences.
- My commitment to excellence drives me to continuously improve and deliver top-quality beverages.

Dairy Management Expertise at Saras Dairy

- Milk Content Evaluation:
 - Conducted thorough assessments of milk contents, including fat, protein, and overall quality.
 - Implemented rigorous testing methods and quality control measures to ensure purity and nutritional value.
- Product Development:
 - Played a pivotal role in creating a wide range of dairy products, from traditional staples to innovative offerings.
 - Developed recipes, optimized production processes, and maintained high standards of product quality and consumer satisfaction.
